

HOT CHOCOLATE

Bomb

Supplies from Kit

- ◆ 1 clear plastic ornament ball
- ◆ 1 12oz package of chocolate chips
- ◆ 1 packet of hot chocolate mix
- ◆ 2oz of mini marshmallows
(packed in a facility that processes tree nuts)

Supplies from Home

- ◆ Microwave
- ◆ Microwave-safe bowl
- ◆ Microwave-safe plate
- ◆ Spoon
- ◆ Freezer
- ◆ Optional: Tablespoon measure

The kit contains enough supplies to make at least 2 hot chocolate bombs. The instructions detail how to make 1 hot chocolate bomb.

Instructions

Step 1: Pour about 3 Tablespoons of chocolate chips into microwave-safe bowl.

Step 2: Melt chocolate in microwave, heating for 30 seconds at a time and stirring after each 30 seconds until all chips are melted.

Step 3: With a spoon, scoop the melted chocolate into each side of the clear plastic ball ornament mold. Spread the chocolate using the back of the spoon until the chocolate layer is thick enough to not break.

Step 4: Place the chocolate-coated molds into the freezer for 20 minutes to set.

Step 5: Carefully remove the chocolate halves from the molds. For each mold, turn it upside down and gently tap on a paper towel laid on a hard surface or counter. If needed, put the mold back in the freezer for an extra 5 minutes.

Step 6: Fill one chocolate hemisphere with about 1 Tablespoon each of the hot chocolate mix and mini marshmallows.

Get creative with your hot chocolate bomb fillings! Crush up a candy cane to add a peppermint kick to your cozy drink. How about a drizzle of caramel sauce or a dollop of Sanders hot fudge? Yum!

Step 7: Microwave the plate for 30 seconds and gently place the other half of the chocolate sphere onto the hot plate until the edges are melted and smooth, about 5 seconds.

Step 8: Gently push the two sides of the chocolate sphere together to seal the bomb.

Drizzle extra chocolate over top of the hot chocolate bomb. Decorate with sprinkles, crushed nuts or candy canes, colored sugar. Or coat with dark chocolate ganache and top with mini marshmallows—cute!

To Serve: Place a hot chocolate bomb in a mug. Slowly pour hot milk or water over top and watch the chocolate shell melt away to reveal the marshmallows and hot cocoa inside.

Stir until the chocolate completely melts.

Enjoy your delicious hot chocolate!
