

Roots

Beet- Detroit Dark Red

Description

Classic red beet, sweet and stores well

Planting Instructions

- Sow beet seeds outside anytime 5/15 – 8/1.
- Sow seeds ½” deep, 1.5” apart in rows 12” apart.
- Keep seeds consistently moist until germination. Days to germination: 5-7.
- Try interplanting radish seeds with beets which will be ready much earlier than the beets.
- Rocks and clods in soil will cause beets to be disfigured.
- Keep beets moist and well weeded.
- Beets will have the best flavor and texture when grown in cooler weather.
