

Flowers

Cosmos, Sea Shells Mix

Description

Delivering multitudes of open-petalled flowers in shades of pink, red, and white, this mixture produces bright, colorful blooms on tall stems with the ferny foliage typically associated with cosmos. Cosmos prefer poor soil. They will thrive with very little attention and do not need a lot of water. Excellent cut flower.

Planting Instructions

- Sow outdoors after the last frost.
- Plant 1/2" Deep
- Germination: 3-10 Days
- Sun/Partial Shade
